

TIG 200 DC

The **Weldmart TIG 200 DC** is a lightweight and efficient welding machine designed for both argon arc and manual welding. Built with advanced inverter technology, it delivers a stable and smooth arc, ensuring excellent weld quality. Its high-frequency arc ignition enables easy starting and consistent performance, while built-in overvoltage and overcurrent protection ensure safe and reliable operation in any environment.

Features:

- Using advanced inverter technology for stable arc performance with efficient power use.
- Built-in protection with overvoltage and overcurrent safeguards for safe operation.
- This machine has argon arc welding and manual welding functions optional.
- With high-frequency arc ignition, good arc starting performance, and stable arc during welding.

TECHNICAL PARAMETERS: -

Model	TIG 200 DC
Input power supply	1 ph 220V $\pm$ 15%
Frequency	50/60
Rated input capacity	3.4 KVA
Open circuit voltage	60V
Current range	10-200A
Duty Cycle	60%
Shell protection grade	IP21S
Efficiency	80%
Insulation class	F
Dimension	360X170X295mm
Weight	7.3 kg

Sales and Services:

Weldmart

Head Office: No. 3 & 3A, Persiaran Batu Gajah
Perdana 7, Pusat Komersial Batu Gajah
Perdana, 31550 Pusing Perak.
